RENU 28™

A SKIN HEALTH
revolution

RENU 28™ Revitalizing Redox Gel is revolutionizing the way we think about skin health. No more covering up or tightening or spot-moisturizing. This is foundational skin health that starts in your cells.

A close-up photograph of a person wearing blue nitrile gloves holding a clear glass beaker. A pipette is positioned above the beaker, dispensing a clear liquid. The background is a blurred laboratory setting with various glassware.

THE SCIENCE OF *redox signaling*

In an industry flooded with skincare products, RENU 28 stands alone. The science behind this innovative product is redox signaling, something most people have never heard of but that takes place in everyone's cells, all the time. Redox signaling molecules are cellular messengers that support healthy cellular rejuvenation and repair damage.

As we age, and as stress and environmental toxins inundate our lives and weaken our defenses, normal cellular function declines, taking with it the proper balance of redox signaling molecules.

A BREAKTHROUGH IN CELLULAR HEALTH

ASEA discovered a revolutionary technology that replicates the body's own redox signaling molecules. This process has been used to develop products that contain these life-sustaining molecules to protect, rejuvenate, and keep cells functioning at optimal levels.

This means that with RENU 28, you can apply active redox signaling molecules directly onto your skin and improve your skin at the cellular level, revitalizing your skin's health—not just its appearance.

RENU 28 Revitalizing Redox Gel is produced in an FDA-registered, NSF-certified facility and is certified by an independent third-party lab to contain active redox signaling molecules.

REDOX CERTIFIED

Using RENU 28 every day revitalizes your skin's health—not just its appearance.

A NEW PARADIGM *in skincare*

In our quest for healthier-looking skin, we have an endless sea of products to swim through, from the affordable to the expensive, from the soothing to the superficial.

All claim to offer a healthier appearance. But how many of them help your skin not only look healthier but actually BE healthier?

For that, you need something that impacts your skin all the way down to the cellular level, where skin health begins.

RENU 28's patented redox signaling technology has been shown to make visible differences in skin by actually making skin cells healthier.

There's nothing else like it on the market.

INNOVATION FOR EVERYONE

RENU 28 is a key component in the RENU Advanced, the first and only redox skin and body care system—a proprietary offering that provides all the benefits of redox + exclusive redox-friendly, anti-aging blends. ASEA's patented redox signaling technology has been clinically proven to benefit cell communication and renewal for a healthy, youthful appearance.

WHOLE-BODY SKIN THERAPY

RENU 28 is not just for your face. This is whole-body skin therapy uses a patented process that replicates the body's own redox signaling molecules to revitalize your skin's health and appearance, with an increased ability to withstand everyday stressors.

Non-comedogenic, hypoallergenic, preservative- and paraben-free, and specifically designed to work at the cellular level with your body's natural processes, RENU 28 adds smoothness, evens texture, and increases moisture, resulting in more vibrant, healthier skin.

CLINICALLY TESTED

RENU 28 provides whole-body skin therapy that revitalizes your skin. Clinical studies have returned amazing results:

BLOOD FLOW

Stephens & Associates found that with twice-daily application, RENU 28 increased microcirculation to the skin by up to 55%.

SKIN CELL TURNOVER

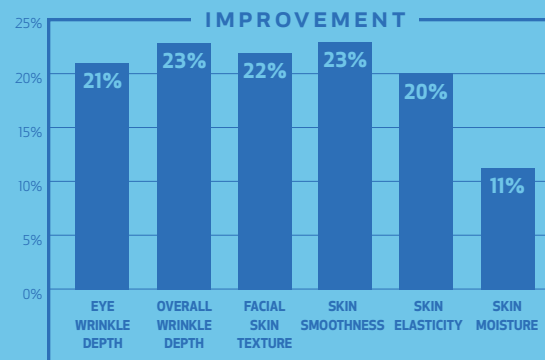

Stephens & Associates conducted a study that showed an increased skin cell turnover rate by 16% with RENU 28.

CELLULITE

Dermatest, a world-renowned dermatological research institute, found that RENU 28 decreased the appearance of cellulite by 16%.

FACIAL SKIN

Dermatest found further impressive results in a clinical study on facial skin.

RENU 28 earned Dermatest's coveted 5-star clinically tested seal, its highest possible commendation.

DIRECTIONS

Shake tube and gently apply a liberal amount of RENU 28 to cleansed skin twice daily. Use on face and anywhere on your body where healthier, younger, and more vibrant-looking skin is desired. Avoid contact with eyes.

SKIN, REJUVENATED

The skin's natural ability to rejuvenate declines over time. Infants turn over skin cells about every 14 days. In adulthood, that time increases to 28 days and continues to lengthen. By age 50 and beyond, skin cell turnover can stretch to as long as three months.

But with daily application of RENU 28, you're giving your skin rejuvenating redox signaling molecules that improve your skin at the cellular level.

No matter what your trouble spots may be, whether it's unevenness or dryness or fine lines—and no matter where on the body they are—RENU 28 can help.

BEFORE & AFTER

Isn't it time you did something for your skin that's going to work? Something that will start way down in the cells, supporting the natural processes your body already has in place?

To find out more, talk to the person who shared this brochure with you. They can also tell you how to improve your health from the inside out with ASEA® Redox Supplement.

Give your skin what it deserves. Try RENU 28 today.
